NEW BUSINESS

CONTRACT RENEWAL WITH WASTE INDUSTRIES/GFL

Town Manager Snow Bowden stated we received a letter from Waste Industries also known as GFL. They would like to continue servicing the town and sent a report for us to continue as is for the next five years. They have gone up every year due to cost of living. He told the Board if this is something you would like for me to look into bidding out, I would be happy to do so.

Commissioner Baker stated when you get too comfortable with a partner, at times, you get taken advantage of. He suggested to send it out for bids to make sure everyone is being as honest as they can.

Town Manager Snow Bowden stated he agreed with Commissioner Baker that bidding out would be best but it is the Board's decision.

MINUTES CONTINUED FROM DECEMBER 3, 2020

Commissioner Baker stated one thing we did include with that contact was we no longer own or maintain any trash cans so that is something that needs to be clear in the bids.

Town Manager Snow Bowden states you do not have to take the lowest bid; you can take the lowest most responsible bidder. He stated one thing to think about is the recycling industry is out of whack. There are people in town who appreciate it and then there are people who use their recycling can as another trash can which causes a lot of contamination. He stated we could possibly give people options to only have two trash cans and not recycling if they choose. He is not sure how we would handle that but it is something to think about.

Commissioner Blackmon stated there used to be a recycling site when the Town first started the recycling program and people could take the recycling items themselves. He stated there are other options than having a recycling can.

Town Manager Snow Bowden stated the last time we saved \$30,000 when we switched companies.

The consensus of the Board was to have Town Manager Snow Bowden put the contract out for bid.

CONSIDERATION OF PROPOSED 2021 MEETINGS AND HOLIDAY SCHEDULE

Commissioner Baker made a motion to approve the Meetings and Holiday Schedule and was seconded by Commissioner Alvarado. **The Board voted unanimously.**

MANAGER'S REPORT

Town Manager Snow Bowden informed the Board that the Town received a total allotment of \$234,000 for the CARE Act funding. He stated we are waiting for one more form from the County that he has to fill out and sign off on.

Town Manager Snow Bowden also informed the Board that at our Regular January scheduled meeting, he plans on talking about the budget. He stated the numbers are better than he originally projected them to be.

GOVERNING BOARD COMMENTS

Commissioner Turnage expressed his gratitude for all everyone did and the prayers for him during his surgery. He stated he did not have a bit of pain, everything went good, and he knows the prayers helped him through it.

MINUTES CONTINUED FROM DECEMBER 3, 2020

Commissioner Blackmon stated he appreciated the phone call and flowers for his mom. He stated it was a bad time and the downside is they could not be with her and he hoped no one ever has to go through that. He states they miss her but he knows she is in a better place. He reiterated from him and his family they really appreciate it.

Commissioner Baker states it has been a year. He expressed his gratitude to the Town Staff, Governing Board and Town Manager Snow Bowden for the outstanding job they have done. He stated he loved all the Town Staff; they are still providing services in the middle of the pandemic. He welcomed the New Town Clerk Lauren Evans. He wished the Town Board Members, Town Staff, and all the citizens a Happy and Healthy Holiday Season and to look forward and pray for a better future.

Mayor Carson states she can tell a difference when walking in the front door, not saying it is bad but the Town Hall has a different atmosphere and she thinks it is the youth. She states there are smiles and cheerful hellos when you come in the door. She informed the Board that the Chamber is having their Christmas Market starting tomorrow night at 5 PM. There will be social distancing and free carriage rides. She states there will be different vendor trucks and bands playing. She asked the Board to come out and support the Chamber.

PUBLIC COMMENT

Town Manager Snow Bowden states the Town did not receive any Public Comment.

CLOSED SESSION

Commissioner Baker made a motion to go into closed session in pursuant to General Statute 143-381.11 (a) (5) To establish, or to instruct the public body's staff or negotiating agents concerning the position to be taken by or on behalf of the public body in negotiating (i) the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange, or lease; or (ii) the amount of compensation and other material terms of an employment contract or proposed employment contract at 7:53 P.M. and was seconded by Commissioner Whitman. **The Board voted unanimously.**

Conditional Use Signature Page

It is understood by the undersigned that the development and execution of the Conditional Use Ordinance is based upon the division of the Town into districts within which districts the use of land and buildings, and the bulk and location of buildings and structures in relation to the land, is substantially uniform. It is recognized, however, that there are certain uses which, because of their characteristics, cannot be properly classified in any particular district or districts, without consideration, in each case, of the impact of those uses upon neighboring land and of the public need for the particular location. Such conditional uses fall into two categories.

1. Uses publicly operated or traditionally affected with a public interest
2. Uses entirely private in character, but of such unusual nature that their operation may give rise to unique problems with respect to their impact upon neighboring property or public facilities.

The Zoning Ordinance as originally adopted and as subsequently amended is presumed by the Town to be appropriate to the property involved and that the burden of proof for a Conditional Use approval rests with the applicant. Applicant is encouraged to discuss the proposed use with affected property owners.

It is further understood that prior to the granting of any conditional use, the Planning Board may recommend, and the Board of Commissioners may stipulate, such conditions and restrictions upon the establishment, location, reconstruction, maintenance, and operation of the conditional use as it is deemed necessary for the protection of the public interest and to secure compliance with the standards and requirements specified in 9-411.5 of the Town Code. In all cases in which conditional uses are granted, the Board of Commissioners shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with.

- Such conditions may include a time limitation;
- Conditions may be imposed which require that one or more things be done before the use requested can be initiated. (For example, "that a solid board fence be erected around the site to a height of 6 feet before the use requested is initiated");
- Conditions of a continuing nature may be imposed. (For example, "exterior loud speakers shall not be used between hours of 10:00 p.m. and 9:00 a.m.")

Compliance with Other Codes: Granting of a Conditional Use Permit does not exempt applicant from complying with all of the requirements of building codes and other ordinances.

Revocation: In any case where the conditions of the Conditional Use Permit have not been or are not being complied with, the Building Inspector shall give the permitted notice of intention to revoke such permit at least ten (10) days prior to a Board of Commissioners review thereof. After conclusion of the review, the Board of Commissioners may revoke such permit.

Expiration: In any case where a Conditional Use Permit has not been exercised within the time limit set by the Board of Commissioners, or within one year if no specific time limit has been set, then without further action, the permit shall be null and void. "Exercised" as set forth in this section shall mean that binding contracts for the construction of the main building have been let; or in the absence of contracts that the main building is under construction to a substantial degree; or that pre-requisite conditions involving substantial investment are contracted for, in substantial development, or completion (sewer, drainage, etc.). When construction is not part of the use, "exercised" shall mean that the use is in operation in compliance with the conditions set for in the permit.

Duration: Duration of a conditional use and any conditions attached shall be perpetually binding to the property unless it is expressly limited.

IMPORTANT

This is a complete Conditional Use Application package consisting of 11 pages. For this application to be accepted, it must be completed and returned with all required documents and entries.

Do be aware that under certain conditions the applicant may be required to obtain a Driveway Permit from the NC Department of Transportation prior to Conditional Use Permit approval.

Using the Zoning Ordinance

- Go to the applicable zoning district in Article 3. That section will serve as a guide to begin the development of your site plan. This section will also direct you to pertinent requirements such as: parking, sign, lighting, and other general provision such as streetscape requirements and other general development regulations that may apply to the proposed development.
- Be sure to read Article 11 – Conditional Uses.
- Complete the Conditional Use Permit Application, the Conditional Use Signature page, and the Record of Adjacent Property Owners sheet; and include other required information with the application. Use additional pages if necessary. Adjacent property owners' names must be from current Harnett County tax listing; so this requires that the applicant contact Harnett County. Addresses of the adjacent property owners must be complete which includes name, mailing address, and zip code.
- The submitted site plan must be drawn to scale and include all dimensions and required provision. Of these dimensions and other requirements, be sure to include the following:
 - Existing structures on the proposed lot, their dimensions and distances between on another and the lot's property lines
 - Proposed structures including their dimensions and distances from other structures on the lot and proposed distances from property lines (i.e. setbacks)
 - All easements and rights-of-way located on the proposed lot
 - All natural features including tree lines, drainage ways, etc.
 - The location and dimensions of required parking area(s) as may be required by Ordinance
 - Proposed lighting plans as may be required by Ordinance
 - Demonstration of the placement of buffers and streetscape as may be required by ordinance

Processing Requirements

Conditional Uses are not Uses by Right. It is the responsibility of the applicant to demonstrate that the requested use will meet the minimum requirements set forth in the Erwin Zoning Ordinance. The Board's decision will be greatly influenced by the completeness and neatness of the submitted application.

A requested and very necessary tool is the sit plan. Its importance cannot be overstated. Applicant is encouraged to portray in detail and to accurately scale the property boundaries, improvements, and any natural features. In some cases, approval or denial may depend on the quality of the Site Plan.

If the proposed use involves business operations, description of the anticipated activity needs to be sufficiently disclosed. This will assist the Board in determining the Town's infrastructure capability, the public health and safety considerations such as traffic and noise, and how neighboring property may be affected.

All uses require dedicated parking spaces and some may require lighting, buffering, fences, landscaping, and other elements. It is suggested that the applicant spend some time reading the Town's Zoning Ordinance prior to application. Copies of the Zoning Ordinance may be purchased at Town Hall. Copies are available in the Erwin Library and Town Hall for review. An electronic copy of the Ordinance can be found on the Town website as well at www.erwin-nc.org.

A complete application consists of all documents included in the application package and any required maps, site plan, and/or related documents. These documents become the property of the Town. It is the applicant's responsibility to submit 20 copies of this completed application. Each member of the Governing Board and Planning Board receives a copy including the Town Manager, Town Clerk, Town Attorney, and Code Enforcement Officer.

The completed application and fees must be submitted no later than the third Friday of the month to be placed on following month's Planning Board Agenda. The Planning Board's recommendation will be presented during a Public Hearing for the Conditional Use Request. The Planning Board may revise its recommendation following the Public Hearing and present such recommendation to the Governing Board before the Governing Board takes action.

Subject: ZT-2020-03

An application has been submitted to the Town of Erwin to have a parcel off of West E Street rezoned from RD (Rural District) to M-1-CD (Conditional District). The property has an existing metal shell building that was built in 1989. It has been used as a welding shop before. It has been vacant for a while and the property owner wants to open up a welding shop in this location. A welding shop is not a permitted or conditional use in the RD Zoning District so he has asked to have the property rezoned. If you want to recommend this property be rezoned you will need to adopt a statement-of-consistency. If you want to recommend against this rezoning request you will need to adopt a statement-of-nonconsistency.

The Planning Board recommended that this rezoning request be approved by adopting a statement of consistency that is included in this packet.

Physical Characteristics

Site Description: This is a half-acre lot that has an existing building on it that has been used for welding in the past. The building was built in 1989.

Surrounding Land Uses: This parcel is located at the end of a town street. The majority of the land uses around this property are residential in nature. There is an existing auto garage across the street from this building, and a water plant is located off this road as well. This property is located at the edge of town limits.

Services Available

- Harnett County Regional Water and Sewer is available for this parcel
- Duke Energy would provide electricity

Staff Evaluation

This parcel is located at the end of West E Street which is a town maintained street. This is an existing building that has been used as a welding shop in the past. Town Staff does not believe there would be an adverse impact to the area if this conditional district was approved. All work would take place in an existing building that has been used in the past for this type of work.

We already have an existing Regional Hazard Mitigation Plan this is just an update to the existing plan. The proposal has already been approved by FEMA. Subject: Proposed Budget Amendments

We have been advised by the technology (IT) department from Harnett County that we need to upgrade some of our computer systems. The older computer systems are more prone to being hacked and other threats as well. The proposed budget amendments would purchase four (4) all-in-one computers plus Microsoft Office for the Police Department, and two (2) of the same systems for the Recreation Department. These purchases were not included in the budget for this Fiscal Year but I do feel like this is a necessary purchase.
